- **TRANSPORTS**
- **HEAD ASSEMBLIES**
- **HEAD STACKS**
- **CASES AND CONSOLES**

A complete line of components and accessories for all Ampex professional audio recorders and duplicators. Update old equipment to new appearance and specifications. Modify existing systems or build new systems. Stock complete spares.

SPECIAL NOTES:

ELECTRONICS: Components listed herein do not include any cables, plugs, etc., unless captive or otherwise specified.

TRANSPORTS: Transports do not include heads, hold-down knobs, reels, AC power cord or manuals. 602 transports do not include above items plus head cover, head shield, head tape guide and associated hardware.

HEAD ASSEMBLIES AND STACKS: All stacks are sold for replacement in Ampex head assemblies and should be used only in those assemblies for which they were intended. Where heads are noted as fixed or adjustable, it indicates Playback (P/B) Azimuth only.

Extreme caution must be exercised in soldering-cables to head stacks, as permanent damage to heads may result.

GENERAL: All components and accessories listed are those currently in production and may not be interchanged with units delivered earlier. If replacements are desired, the appropriate manual should be consulted.

REBUILT HEADS: Ampex offers a head rebuilding service where complete assemblies are refurbished to like-new quality. Consult Bulletin A120 for full details,
