MicroLynx Cable Drawings

Converted to OrCAD Capture 9.2 format on May 20 2003.

gl

=====

Most original files were dated February/March/April 1992, and are believed

to be the most recently published.

#### KNOWN ERRORS

=====

1. The cable 71387A, Fostex Model 20, is missing the Fostex 20-pin connector

and its pin numbers. I do not have any data from which to accurately

re-create this connector.
