Item specificsSeller Notes: **"Used"**Model: **MM-1000**Brand: **Ampex**Country of Manufacture: **United States****Ampex MM-1000 2" inch 16 track Analog Tape Machine.**

A wonderful piece of recording history that sounds amazing. The precursor to the beloved MM-1200. Check the forums this is one of the fattest tape machine

The unit is in great shape. It has had the heads serviced by Sprague. Comes with many extra parts, all original manuals and card extenders for repairs. Is fully fired up the machine and said "align it and go"

As the internal picture shows the unit is very clean no rust(to the mechanics) etc...

Creation History: (Note: this information is correct to the best of my knowledge and research)

This machine was a prototype made by the creators of T.T.G. Studios(the designers of the Record Plant Studios).

It is the third MM-1000 ever built. (The first for Mirasound and the second for Pacific Recording Studios)

One of the clear identifiers of the proof that this machine was built by T.T.G. is that reportedly two AG-440 machines were taken apart for there electronics.
